EPIC[®] Organiser

Entertainment • Power • Information • Connectivity

A single, simple connection panel for all your guests' devices

A quick peek into the luggage of a modern traveller typically reveals a collection of electronic devices.

You might find a laptop computer, a digital camera, an MP3, a portable DVD player, PDA and more. Yet few hotels are equipped to allow guests to get the most from their gadgets. Typically, outlets are scattered around a room. They are difficult for guests to reach and not aesthetically pleasing.

Now, thanks to Schneider Electric innovative EPIC Organiser, you can delight your guests with a room or suite that is completely compatible with all their devices.

Equipping your hotel with the EPIC Organiser will elevate your service to a superior level of quality.

Suite Dreams

Total power

There are few things more frustrating than arriving in a foreign country to find your devices' batteries are running low and cannot be recharged. With our TruGlobal Socket and USB Charger Hub such problems really are a thing of the past.

TruGlobal Socket –

The most compatible socket in the world

The patent-pending TruGlobal Socket accepts A, B, C, D, E, F, G, I, J, K and L plug types and is thus compatible with plugs used by virtually every traveler worldwide – the widest coverage ever in the history of sockets. It is also the first socket in its type and class to comply with IEC 60884-1:2002, BS546, BS1363-1, AS/NZS 3112 and SEV 1011 standards.

USB Charger & Hub

The USB port is fast becoming the most important source of electrical power for mobile devices. This all-in-one charger recharges 3 devices simultaneously with no need for a computer. It also allows normal data sharing when a computer is plugged in.

Total entertainment

Entertainment takes on a whole new meaning with the digital revolution. Photos and videos can be shared without waiting. Movies and music can be carried around without burden. People are in charge of what, when and how they are entertained. Ultimately, the Total Entertainment solution ensures that all kinds of devices and media carriers are usable and adds a new dimension to in-room entertainment.

Control & Charge dock for iPod

In addition to simple plug and play delivery of music tracks, videos and photos from an iPod via the guest room TV, this system offers the added advantage of remote controlling iPods with multilingual on-screen displays on the TV. It also recharges and supports most currently available iPods with no need for an adaptor.

HDMI port

As the latest standard for ultimate High Definition transmission, our HDMI port enables instant viewing of HD video on in-room TVs direct from video recorders. It also conforms to HDMI 1.3 specifications with deep colour support

USB2.0 port

With a high-speed 480Mbps-rated connection, this port enables mega-pixel digital photos to be shared in their full glory via in-room TVs without lag or delay.

Multi-Card reader

Compatible with WinME, Win2k WinXP, Vista, Linux and Apple MacOS, this 4-port mini-USB card reader empowers guests with simultaneous access to, and sharing of, data between SD/ MicroSD, MS, CF and XD memory cards.

RCA and S video socket

Compatible with all devices, this handy 4-socket enables guests to enjoy personal music and videos.

Made for iPod means that an electronic accessory has been designed to connect specifically to iPod and has been certified by the developer to meet Apple performance standards.

Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards.

iPod is a trademark of Apple Inc., registered in the U.S. and other countries.

A tech-chic room for the “bleisure” age

With business and leisure blurring like never before, “going the extra mile” for discerning travelers means creating a genuinely extraordinary “bleisure” experience that will invariably be rewarded with dazzling smiles from your guests. The “bleisure” age, who will boast to their friends and colleagues how your hotel let them:

- View the videos and photographs they shot that day on the in-room television
- Connect their MP3 and video player to the in-room AV system to enjoy their personal entertainment
- Link their laptops to the in-room AV system for big-screen computing
- Work more efficiently and have fun via the in-room interface to their PDA, PSP and other game machines

The EPIC Organiser can intelligently convert various types of data signals to TV output to bring your hotel into the personal entertainment revolution.

With EPIC’s installation friendly design, you can have absolute control of where the EPIC Organiser should be placed in order to get guests impressed at first sight entering the room, you can also choose a place that is at the most easy to reach corner for them to enjoy too.

Not only do you add an extra element of style to your interior decoration, the superb quality finish and a choice of colours and materials also guarantee the EPIC Organiser looks perfectly in presidential suite. You’ll love its appearance as much as guests will love its usefulness.

The EPIC Organiser even features a changeable faceplate. So if you decide to change your décor, you can change the face plate to match. And the unit is tough and easily cleaned and maintained – you couldn’t ask for more.

Schneider Electric produces a complete range of switches and connections purpose-made for the hospitality industry. Choose Schneider Electric all the way for the epitome of elegance.

Product Specifications

Change the features to match the future

When technology changes in the future, you'll be able to easily upgrade the EPIC Organiser to accommodate those changes. That's because the EPIC Organiser features a fully modular design.

You can also order the configuration most suitable for your needs, incorporating your choice of:

- 110/240V power supply sockets
- Audio/video/voice player recorder equipment connections for S-video, RCA, Mini Audio, and PC RGB (DB 15)
- Digital device interfaces requiring data ports such as Cat6
- Telephone connections
- USB module
- Easily upgraded for standards anticipated to become popular
- Rear cables for TV connections quoted on request
- Conduits to hold cables

And many more coming soon...

Easy to install, plug and play simplicity for guests

It's easy for guests to plug into the user friendly EPIC Organiser because the connection points are carefully designed with adequate space between them.

Some AV products can even be detected by the EPIC Organiser – the TV senses the signal and adapts automatically to the visuals and sound produced by the device. That's true plug and play capability.

And it's effortlessly simple to install the units – no special expertise is required.

Remember, you can be sure this product is right for your property because it has been developed specifically for use in the hospitality sector.

Sound good? Find out how your guests react by installing one in a room. Contact us today and we'll get you started.
